

HOME button is not working like we want to go from project to home one
Logo is the engineering and construction is small and unbalanced; you gave the SVG change like you would like these images engineering and construction must be shown bigger not smaller now its
unbalanced

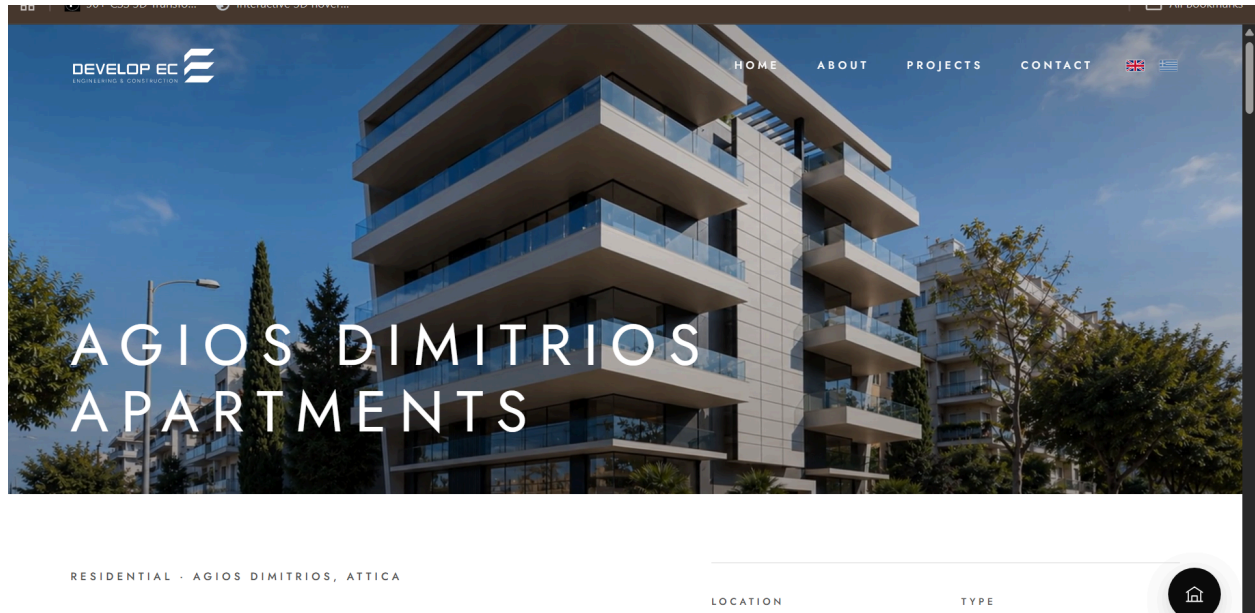

Then Adamopoulos must be bigger like we need to see the combination with Adamopolu and develop ec so it must be bigger and Adamopolu when it starts it must be the first small letter Adam... so understand the idea the idea is to show develop ec is by Adamopolu like that if you see when I select it becomes like more visible think something and make it

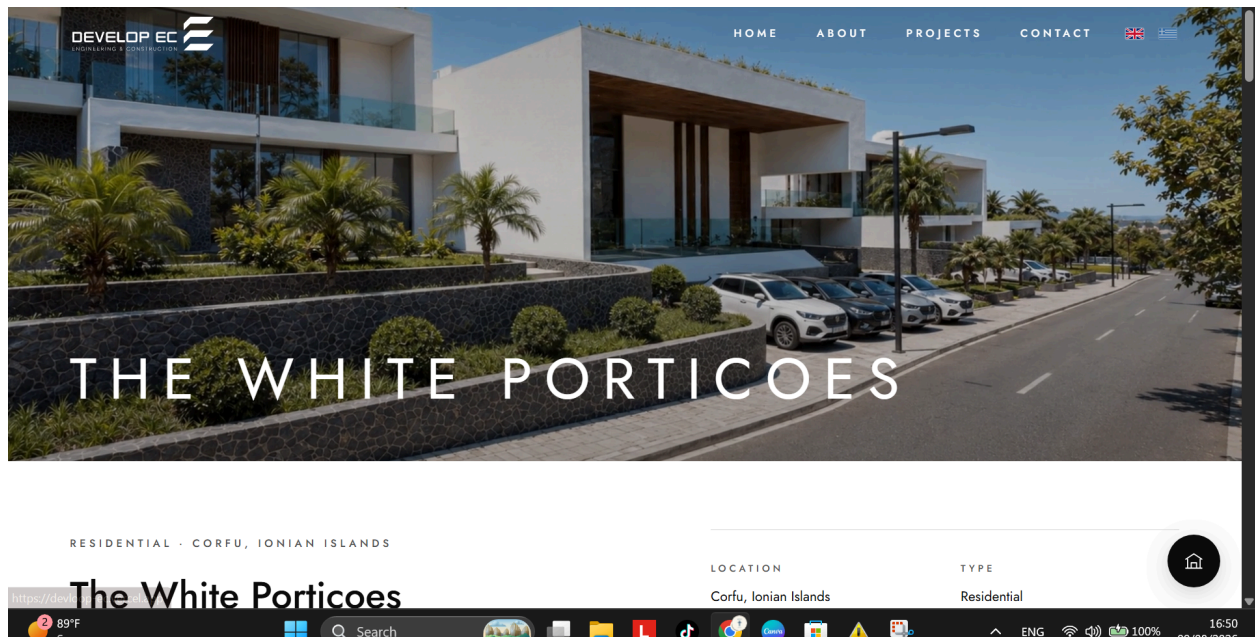

Necy project cocrenct and imggae to see what project its beccarfull undersad first correction then image

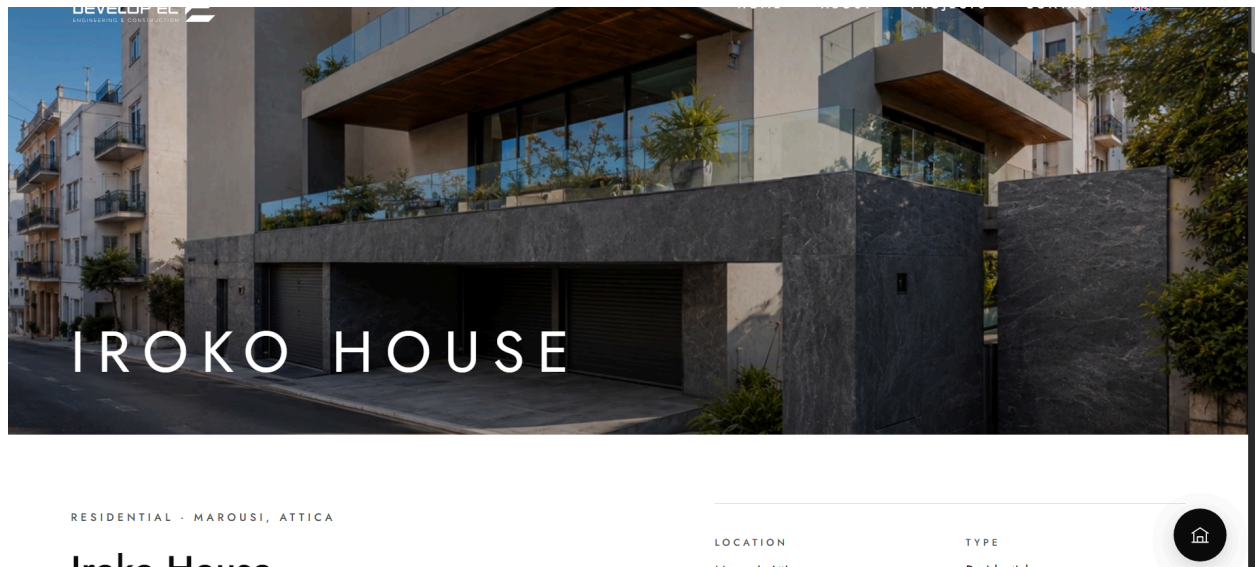

Its pyrgos ilias not attica and its under construction

Its pyrgos

Its pyrgos and also dark marble not dark stone

Chalandri Residence and Kourouta Beach House is i changed 3 photo and 1 vdeo each for so heck the last push and replace 3 photo and 1 vudeoeach because the old one is for the Kourouta Beach House its the background building was big and for Chalandri Residenctheere was design pr0boelm

In the end here structural and civirl enegriner i sthe same so remove and make one enegring in about part

TEAM

MSc Structural Civil Engineer, National Technical University of Athens

MSc Local Development & Regional Administration, University of Piraeus

Behind every project stands a full multidisciplinary practice. Around Georgios, Develop EC brings together **civil engineers, architects, structural engineers** and surveyors in the studio, with experienced site supervisors and construction crews in the field. Design, licensing and construction are handled by one coordinated team, so nothing is lost between the drawing and the building site.
